Objective

Hardworking and highly motivated third year Human Biology student looking to contribute to the field of scientific research. Excited to assist and learn from a great team of experienced researchers in their field of research.

Education

University of California, San Diego

- Human Biology Major GPA: 3.82
- Graduation Date: June 2024

Relevant Coursework

- BILD 4: General Biology Lab
 - Designed and presented hypothetical research project about effects of smoking on brain development
- CHEM 7L: General Chemistry Lab
 - Experienced with titrations, creating solutions, spectroscopy, and lab safety.
 - Used experimental techniques to critically analyze scientific data to form a conclusion
- CHEM 43A: Organic Chemistry Lab
 - Experienced with IR spectroscopy, distillation, chromatography, creating solutions and lab safety.
 - Used experimental techniques to critically analyze scientific data to form a conclusion

Work Experience

Instructional Assistant for Cellular Biology Class • UCSD Biology: September 2022- December 2022

- Teach weekly discussion sections giving over course material to a class of thirty students
- Incorporates active learning strategies to classes to help students achieve their goals within the course
- Communicate and collaborate effectively with instructional team to organize course logistics

Caregiver/CNA • Belmont Village La Jolla: July 2022 - Present

- Assist patients with activities of daily living including incontinence care, bathing assistance, passing out medication, and patient transfer needs.
- Respond to and address medical emergencies with patients.
- Lead clinical shift change meetings to ensure that oncoming clinical staff are well prepared for their shift.
- Train new Caregivers and CNAs to get them well prepared for their new job.

Volunteer Nursing Assistant • VA Medical Center La Jolla : October 2021- Present

- Assists nurses with day-to-day tasks including patient nutrition, patient transport, and general housekeeping.
- Interact with patients and medical staff to ensure the best care for our patients

Data Entry Intern • Robinson Pharma: June 2020 - August 2020

- Collected and recorded confidential company information on to Excel
- Organized and presented data to supervisors
